DOUBLE CINCH FOR GUTHRIE AS JUDGE

Dave Wells' Candidacy to Succeed Him Leaves Richards Alone.

Frank M. Guthrie, member of the county court, was elected probate court judge without opposition Saturday morning by the county court.

Squire Guthrie has his commission made out and was sworn in by Judge Young as the successor to the late Judge Jacob S. Galloway.

However, there is some question as to who has the jurisdiction to fill a probate court judge in the case of a vacancy.

It is a state court and the county court is a county court, and the county court is a county court.

Squire Guthrie granted both horns to make sure of this and leave Richards a clear field unless some magistrate enters the field.

Crump is supporting Richards and Monteverde is supporting Wells, but the mayor can only control two votes in the county court.

The poll tax collector will be elected at the April term of the court.

RESULTS IN LIFE LOSS, MANY SHOT

Canadian Troops Take Part in Serious Outbreaks at Military Camp Which Ends When Ringleaders Caught.

LONDON, March 8.—From 8 to 27 persons are estimated to have been killed and from 25 to 75 wounded in rioting during the past two days at the Kinnel military camp at Rhyll, Wales, according to a Liverpool dispatch received here.

According to latest reports from Liverpool the riot was started by about 200 malcontents. There were 25,000 Canadians in the camp awaiting demobilization and embarkation. The men who caused the trouble were war casualties who had served for three years or more in France. They complained that their embarkation had been postponed while other men who had seen less service were sent home.

After the destruction of stores of all kinds Tuesday by the discontented men, the situation took a more serious turn Wednesday, when the cavalry was called out but was forbidden to use its arms.

Troops from Chester intercepted the rioters in their march upon Abergele, near Rhyll, and also prevented a threatened raid on the latter place. Five men were killed and 40 injured in the course of this fighting, it is reported.

Most of the deaths were due to shooting. It is said, an unnamed party holding the Victoria cross and believed to be from New Brunswick, reported to have been virtually trampled to death while attempting to defend the officers' quarters against great numbers of rioters.

The Daily Mail says the Canadian authorities restored order without the assistance of British troops and declare that the matter is solely one for Canadian disciplinary action. The Canadian officials have informed the British that they do not desire any increase in shipping facilities, as a consequence of the outbreak, as the British intend to be coerced by the action of the rioters.

It is stated that 20 or 30 of the ringleaders, most of whom have been arrested by the Canadian authorities co-operating with the civil police. On Thursday numbers of the men paraded in Rhyll. They made noisy demonstrations, but committed no damage.

Began at Night.
The outbreak began Tuesday night with a cry, "Come on, boys," uttered by a man said to belong to the Canadian forces. A large number of men wrecked the stores and thousands of boxes of bread were trampled into the mud. The women's auxiliary quarters were then rushed and the women's clothes carried off. The rioters seized stores of ammunition, fired on the officers' quarters and then began a march in the direction of Abergele, but were held up.

An official statement issued by Canadian military headquarters says it is regretted that some of the accounts of the fighting, in which Canadian soldiers took part, have been exaggerated. The incident, but give no details of what happened.

It is explained the lack of shipping facilities to take Canadian soldiers back home is due partly to strikes, and it is stated that the rioters have been divided into sections according to the Canadian military districts from which they came. By this means some of the rioters were sent home ahead of some who had been under arms for a longer period.

A special court of inquiry has been ordered to conduct an investigation.

NEW YORK, March 8.—With 46 officers and 1,000 men of the 348th infantry of the 87th division (national army, Arkansas, Louisiana, Mississippi), the steamship Chicago arrived here today from Bordeaux. These troops comprise the 348th field and staff, headquarters of First and Third battalions, headquarters and supply companies, sanitary detachment and Companies A, B, C, D, E and G. They are assigned to Camp Dix.

The soldiers numbered 843, a majority of them being convalescents. OFFICERS KILL SOLDIER IN FIGHT FOR LIQUOR

KNOXVILLE, Tenn., March 8.—Jack Bridwell, a private soldier lately returned from overseas, 24 years old, was shot to death, and his father, George Bridwell, wounded in the hip last night at Kingsport, Tenn., near Bristol, as the result of a pistol battle with two police officers. The officers were attempting to arrest young Bridwell and his father, who were suspected of bringing illicit whisky into Kingsport. They resisted arrest and a fight ensued, in which the younger Bridwell was killed, a bullet entering his breast. Four suitcases loaded with pint bottles of whisky were found in the buggy in which they were riding. It was said.

The two policemen were later arrested and taken to Blountville, a nearby town, for safekeeping. Bridwell is running high here and crowds paraded the streets of Kingsport last night. Order was restored when it was reported the policemen had been taken away.

Jack Bridwell, who was home on a furlough, had just returned from France, where he had seen service in the fighting line, having "gone over the top" four times.

ADVERTISING IS SUCCESS, SAYS MEMPHIS MAN

KNOXVILLE, Tenn., March 8. (Sp.)—This is the secret for success in business as emphasized by the impressive address at the merchants' short course here by Albert C. Jahl, of Memphis, president of the Associated Advertising Clubs of Tennessee.

Every successful business is based upon advertising, said Mr. Jahl, "therefore constant advertising secures the seeds of business in fertile soil, and the continued advertising of your business generates life and develops the growth of your business and enables you to reap the harvest."

Newspaper advertising as the best means for getting results was recommended by Mr. Jahl.

"You will find that practically all advertisements that come to your attention are simply old gems, polished anew and an adjective stuck here or there to make it a little different from its predecessor," said Mr. Jahl. "The real success in advertising is the fine art of doing the thing as others have not done it."

GOVERNMENT POWDER TO BE MADE AT NASHVILLE

NASHVILLE, Tenn., March 8.—Brig. Gen. O. C. Horney, commandant of the old Hickory powder plant here, in an address yesterday said that all the powder for the army would be manufactured here in the future. The government plant at Dover, N. H., he said, will be abandoned.

TELLS OF HIDDEN MORTARS WHICH PROTECTED COAST

NEW YORK, March 8.—Huge mortars, standing on concrete emplacements and abundantly supplied with half-ton projectiles, were erected during the war among the flowers and shrubbery of private gardens in New York city and elsewhere along the Atlantic coast, ready to repel attacks of German naval or airships, Maximilian Toch, one of the first American camoufleurs, told the New York section of the American Chemical society here last night.

Mr. Toch, who directed several of the navy's important camoufleur projects, spoke with the consent of Secretary Daniels. He described how honeyuckle, morning glory and ivy, as well as paint, had been employed to conceal or lower the visibility of coastal fortifications.

Ambrose channel, the mouth of New York harbor, was protected, in addition to the guns in the regular army forts, by mortars having a range of 12 miles, said Mr. Toch. Some of these auxiliary cannons, he declared, were placed two and a half miles inland on private

estates and so concealed by arrangement of trees, shrubbery and flowers that passersby were ignorant of their erection, and even aviators found "little or no evidence" of their location. They were manned by army gun crews, ready for instant action.

The camoufleur described also his work in disguising navy yards and docks along the Atlantic coast, notably the Pensacola and Key West bases, which were exposed to attacks by German raiders and submarines operating in the South Atlantic.

The navy believed, Mr. Toch asserted, the Germans had a secret base on the north coast of Cuba, adding "rich German firms in Havana were notoriously aiding the central powers" and there were more German spies and propagandists on the island than in the United States.

Mr. Toch declared the army "did not take kindly to camoufleur at the beginning of the war," and said he had "great difficulty" in convincing army officers of the necessity of camoufleur fortifications adjacent to navy yards. Prior to the war Mr. Toch gained a reputation as a camoufleur by lowering the visibility of the forts at the Pacific entrance to the Panama canal.

FIVE BOYS HELD FOR BIG ROBBERY

Youths, Aged 16 to 20, Nabbed for Holding Up Messenger.

NEW YORK, March 8.—Five boys, ranging in age from 16 to 20, are under arrest today, charged with assault and robbery following the daring holdup yesterday in the financial district of Milton Strohm, a broker's messenger, of Liberty bonds and other securities valued at \$43,000.

The boys, three of whom were brothers, and all messengers of brokerage houses, the police say, were associated in the robbery. Strohm was struck on the head and his bag containing the Liberty bonds and securities seized. He was so severely injured that he had to be taken to the hospital.

Information given to the police by Strohm led to the arrest last night of Gustave Mignone, 20, and his brother, Anthony, 18, at their home in the Flatbush section of Brooklyn. Another brother, Theodore, 16, was arrested early today. Later the police arrested Edward Andreas, 20, and Lester Dietz, 17. According to the police, Theodore Mignone confessed to the actual holdup of Strohm, which, it was said, he planned three weeks ago.

After the arrest of the youths the police found the bag containing the securities in a subway station and the \$43,000 worth of Liberty bonds were found under the floor of a paint shop owned by Edward Andreas' father.
